

Vishal Rajendra Dalve

Senior Software Engineer
Backend Systems

PROFILE SUMMARY

Vishal Dalve Software Engineer | Backend Development and Database Specialist I am a highly motivated and skilled Software Engineer with a Master's degree in Computer Applications and over 8+ years of experience in developing robust applications. My core expertise lies in backend development and database management. With a strong background in both web and mobile application development, I have honed my skills in various technologies, including Blockchain, Native Android development, JavaScript/Node.js, and TypeScript. My career is marked by a proven track record of delivering high-quality, scalable, and secure projects, consistently meeting and exceeding project deadlines and budget requirements. I am particularly passionate about devising innovative solutions to complex challenges and continuously seek opportunities to enhance my skill set. As a committed team player, I thrive in collaborative environments, working effectively with colleagues to achieve shared objectives.
